MOBILITY & CIRCULATION

Access to Destinations Key Considerations

- Quality of the pedestrian environment
- Light rail access
- Walk access to employment
- Vehicle miles traveled and household costs
- Bicycle infrastructure

Buckeye Road Within Downtown RDA

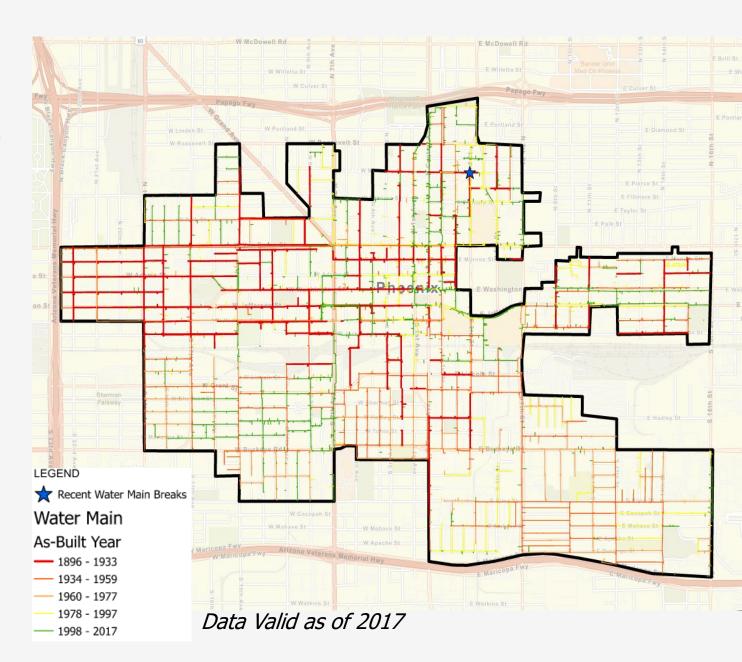

McDowell Road Outside of Study Area

INFRASTRUCTURE

Age of Water Pipes Aging Water Infrastructure

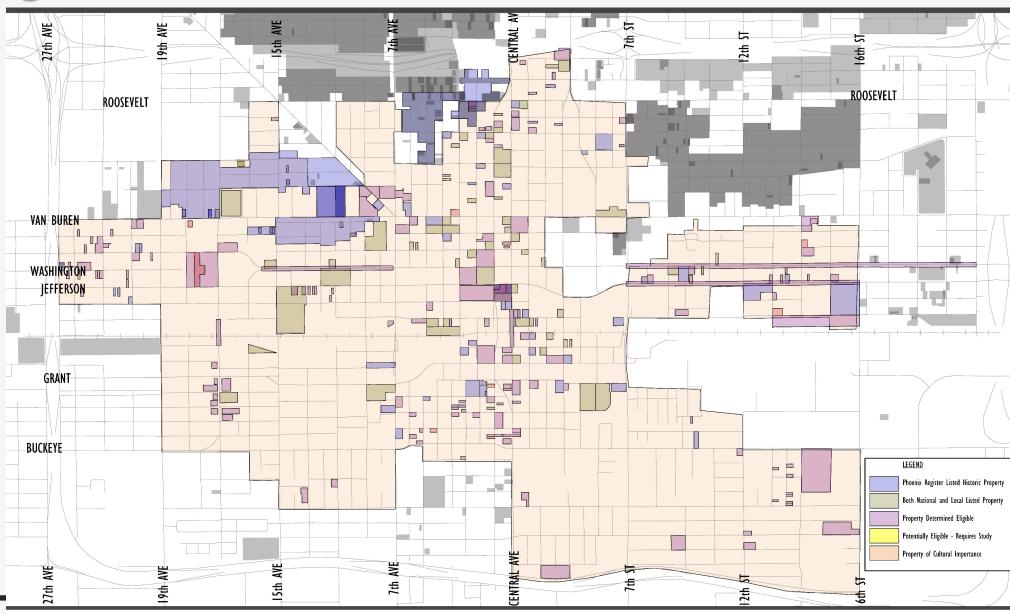

- The majority of the existing water infrastructure within has exceeded the expected lifespan and therefore subjected to failure (e.g., pipe breaks).
- Water demand in this area is projected to remain the same or decline because of high-efficiency water usage fixtures/ appurtenances and decreased landscape irrigation.

Winter 2023: Expected plan completion and adoption

Updating the RDA Plan

With the updated RDA boundary established, the next step is to update the Redevelopment Area Plan. The previous plan was approved on March 13, 1979 and can be found here. The update to the RDA boundaries triggered the need for an updated plan that addresses the present-day conditions and needs of the Downtown area. The scope of the updated RDA Plan will include demographic, economic, and housing data, barriers to development, community assets and needs, and much more. This effort will culminate in a report that will provide a framework for future redevelopment opportunities in Downtown Phoenix.
